## Principal's Message

## Season's Greetings!

As we proceed towards the end of first semester, it's time to re-visit and assess our goals that we had set in the beginning of the session. So far we have been successful in achieving some of the goals but that doesn't mean to rest on our laurels. It's the time to celebrate our achievements and also to visualize future challenges.

We are at the important junction of this session. Summative Assessment has just finished and a thorough result analysis is being taken up. While taking a positive note of our success we have to analyze our shortcomings also and positively plug them with our hard and sincere efforts. We have planned to conduct remedial classes to help slow learners. The school is always willing to walk an extra mile for the welfare of students and expects cooperation from the parents. It is our gentle reminder to our most beloved students to be consistent with their studies so that they may break the records of previous year and add to the glory of their temple of learning again by setting new standard of achievements. The school while striving to maintain high academic standards also encourages its students to participate in various co-curricular

activities and time to time our efforts get well testified through our achievements. For the first time, with the creative and innovative ideas of the teachers of Science and Mathematics Deptt., our students participated in Regional Level Science Exhibition at Lucknow. We made our presence felt with our Mathematics project qualifying for the National Level of CBSE Science Exhibition. I extend my heartiest congratulations to the students and the teachers associated with these projects. I wish all the best for the success of Mathematics Project at NATIONAL level. Go well prepared and participate enthusiastically and be the winner. The ultimate objective of education is to contribute towards a harmonious and balanced society. I feel that being the member of DAV family and literally following its mission and vision, we have a great responsibility of passing on to our young generation those precious values, culture and traditions that we have inherited from our elders. Havan performed each month is a way of making our learners sensible towards our great values and assimilate the same in their real life. As festive season is approaching, I once again send my greetings and best wishes to D.A.V. College Managing Committee, school management, parents, staff and students. I applaud the sincere efforts of members of the editorial board for bringing out the e-Newsletter regularly and showcasing every achievement and creativity of the students.

HAPPY READING!
