SPECTRUM

A Quarterly E-Newsletter

April - June 2012

From Principal's Desk

I really do believe, deep down inside, that hard and sincere work always pays in return. The staff and students of TCDAV BABRALA have made mark by producing remarkable results of classes X and XII and added to the glory of the school. It is really the students of the school who under the guidance of their GURUS make their superfine career and serve the world in diverse arena with devotion and honesty and make the school proud. I can say with firm conviction that in the forthcoming years also our students will perform better in their exams under the close supervision of teachers and they will strive to excel in competitive exams also. I extend my heartiest

congratulations to the students, parents and the teachers for this excellent result and wish the trend will continue in the years to come. I would like to express my sincere thanks to DAVCMC and LMC, TCDAV Public School for providing their unstinting support for realizing our dream to reality. This year we have started with ALUMNI association, though strength was thin but it was very exciting, effective and fruitful for our existing class XII students as they could share the progress of their seniors and their experiences. Hope it will be a grand meet in the ensuing year. This issue of the spectrum is intended to highlight the achievements of the students in CBSE's result. I congratulate the members of editorial board for bringing out this issue of spectrum and wish it every success.

All the best.

SESSION 2012-13 GETS AN AUSPICIOUS BEGINNING

Earth Day Celebration

A good planet is hard to find, protect our Earth today for our children's tomorrow.

In order to keep our earth in safe and protective hands of our future generation and to strengthen the collective fight against the man's exploitive relationship with the planet, Earth Week was observed in T.C.D. A.V. which culminated into a special assembly on Earth Day. All the students of T.C.D.A.V. celebrated this occasion in their unique way by reading out, speaking out and acting out for the sake of their planet. Our young buds delivered various informative speeches along with power point presentations and poem recitation on safe environment. To give an exposure to the earth hazards and sensitize the students with the harmful effects of global warming the students of class VIII Blue staged a very lively skit and left everyone spellbound. Our growing talents of T.C.D.A.V. gave vent to their creativity by making many colorful posters about Mother Earth. On this special occasion many saplings were also planted along the pavement by the kids. Many students picked up bits of papers and litter to make the school surroundings neat and clean. On this occasion all the students took a vow to combat climate change so that our future may be in safe and protected zone.

Founder's Day Celebration

Founder's day is the day to honor the achievement and success of the school. T.C.D.A.V. celebrated its Founder's Day with an exuberant display of immense talents on May 4, 2012. The curtain of this evening went up with the arrival of the honorable Chief Guest. Shri V.K Bhatia (Sr. Vice-President, Manufacturing and Projects Tata Chemicals Limited) and the guests of honor, Shri V.K. Nayik (President, Radha Group of Institution) and Mr. O. P. Tripathi (Vice President, Manufacturing, T.C.L Babrala). The inaugural ceremony commenced with the auspicious lighting of 'Deep Shikha', the lamp of knowledge. After the lamp lighting Principal, Mr. Jagdish Singh accorded a very warm and heartfelt welcome to everyone present there. Afterwards Principal Sir presented the Annual School Report

tracing out the progress made in the last session and assured to take the school to the height of success. In his speech Mr. O.P. Tripathi applauded the efforts of students, teachers and Principal for all round development of the school and expressed his desire to see the school as one of the best schools of the country. Thereafter many students and teachers were honored for their contribution in academic and non academic field. On this occasion our magazine 'Darpan' was also released by Mr. V.K. Bhatia.

The musical extravaganza made a humble beginning with the curtain raiser exhibiting the hard work of teachers and students behind the curtain followed by devotional mantra dance. Our Tiny tots gave a captivating performance by dancing to the tune of the song '**Put me up and put me**

down.....'. The Symphony of orchestra was presented by 54 students. Hindi Skit 'Madhuban Ki Khushboo' forced the audience to be emotional and to introspect themselves to be respectful towards their elders in the changing scenario. Our young athletes presented their fountain of talents with an amazing show of gymnastics. The semi classical dance, puppet dance and folk dance 'Ghoomer' presented a marvelous and colorful garland of dance performances. Qawwali also earned lots of appreciation from the audience.

The program rose to a final crescendo with the vote of thanks proposed by Miss Sanya (IV) followed by a melodious rendition of National Anthem. The program was well attended and appreciated by all.
